

A woman with long blonde hair is sitting on a white golf cart on a lush green golf course. She is wearing a sleeveless, knee-length dress with a vibrant, multi-colored geometric pattern. She is also wearing white athletic shoes with dark laces. Her left arm is raised and resting on the back of the cart, while her right hand holds a golf club. The background shows a well-maintained golf course with trees in the distance under a clear sky.

Fashion

A Timeless Style.

MOISTURE MANAGEMENT

Sweat is absorbed out of the fabric thanks to the moisture-absorbing technology. Evaporation of moisture occurs much easier when it is on the surface of the fabric than between clothing and the skin.

ANTI-ODOR

Our golf garments feature Anti-Odor technology. These garments contain silver nano-particles reduced to a billionth of a meter in size and embedded in the fabric against growth of bacteria when you sweat.

BREATHABLE

The most essential feature that golf clothing shall have is breathability. What breathability means is the ability to transfer moist air through the pores of the garments. This feature helps to make any physically exhaustive activity more comfortable.

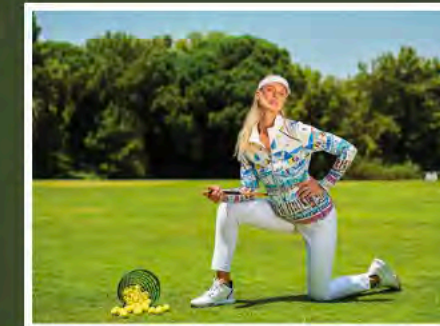

4 WAY STRECH

Garments are generally stretched in two directions along the weaving lines. The 4-way flexibility provided transversal and longitudinal stretching for a better freedom of movement. Feel no constraints with your golf swing no matter how many layers you put on.

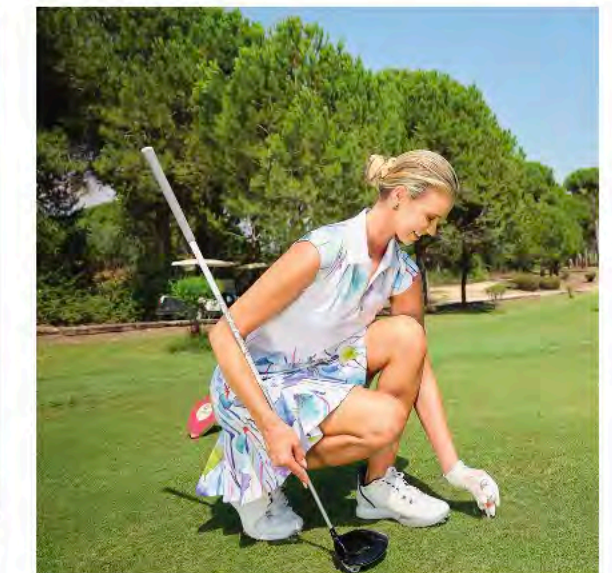

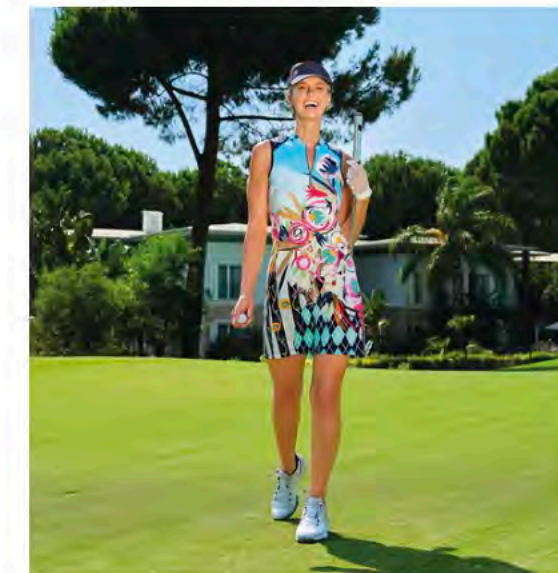

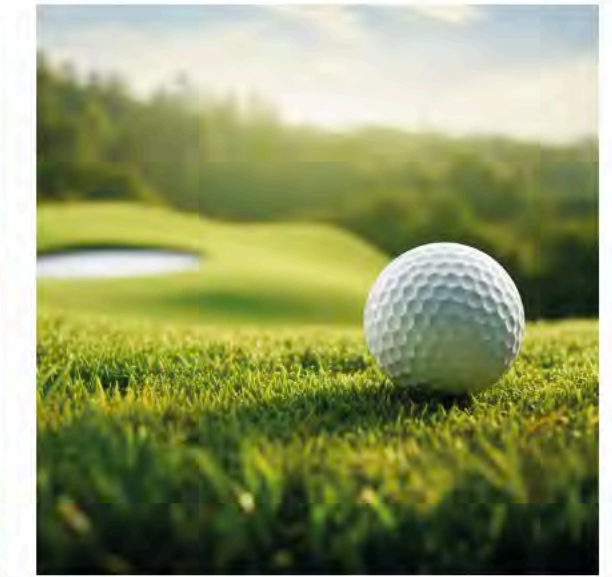

UV PROTECTION

Fabrics can be made of many types of fibers including cotton, wool and nylon. Most types of fibers naturally absorb certain amount of UV radiation and some have elastic threads that pull the fibers together snugly to reduce the gaps between openings. You will be able to protect your skin with 50+ upf.

Elegance in Every Stroke

Style in Golf is Part of the Game!

36275

Style Speaks on the Field.
